

RENCANA PEMBELAJARAN SEMESTER GANJIL 2016/2017
PROGRAM STUDI SISTEM INFORMASI FAKULTAS ILMU KOMPUTER
UNIVERSITAS ESA UNGGUL

Mata kuliah	: Metodologi Penelitian	Kode MK	: CCM401
Mata kuliah prasyarat	: 1. Information System 2. Software Engineering	Bobot MK	: 2 sks
Dosen Pengampu	: DR. Ir. Husni S. Sastramihardja	Kode Dosen	: 7145
Alokasi Waktu	: Tatap muka 14 x 100 menit, ada tugas latihan menyusun contoh proposal, tidak ada online		
Deskripsi Ringkas	: <i>Final Project (Tugas Akhir) as Research, State of Art Research Methodology, Formulating Research Problem, Discipline of Information System and Informatics, Quantitative and Qualitative Research, Planning and Design a Research Study, Conducting the Research, Types of Research Design and Approaches, Quality and Originality, Ethical Consideration in Research.</i>		
Capaian Pembelajaran	: 1. understand the concept and methodology of research in general; 2. have experience in conducting exploration to plan a final project as research for undergraduate students		
Buku Acuan	: 1. Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley and Sons, Inc, 2005		

SESI	KEMAMPUAN AKHIR	MATERI PEMBELAJARAN	BENTUK PEMBELAJARAN	SUMBER PEMBELAJARAN	INDIKATOR PENILAIAN
1	Student understand the idea of research & know Final Project for Undergraduate Student	<i>Introduction: Course Plan;</i> <i>State of Art Research for Undergraduate Students</i> <i>Introduction & Overview;</i>	1. Methode: <i>contextual instruction</i> 2. Media : class room, computer, LCD, whiteboard,	1. Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley and Sons, Inc, 2005 – Chapter 1 2. Husni Sastramihardja, Course Hands Out, 2016	Describe what is research and distinguish the differences between research and development

SESI	KEMAMPUAN AKHIR	MATERI PEMBELAJARAN	BENTUK PEMBELAJARAN	SUMBER PEMBELAJARAN	INDIKATOR PENILAIAN
		<i>What is Research and Final Project</i>			
2	Student understand how to choose a research topic	<i>Planning & Design a Research Study. Choose a Research Topic (Introduction to Research Domain & Type)</i>	3. Methode: <i>contextual instruction</i> 4. Media : class room, computer, LCD, whiteboard,	1. Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley and Sons, Inc, 2005 – Chapter 2 2. Husni Sastramihardja, Course Hands Out, 2016	Describe what is the research he/she wants to do, related to the perspective of his/her study program
3	Student understand how to formulate a research problem & have experience in expressing the perspective	<i>Planning & Design a Research Study. Formulating a Research Problem (Orientation for Perspective)</i>	5. Methode: <i>contextual instruction</i> 6. Media : class room, computer, LCD, whiteboard,	Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley and Sons, Inc, 2005 – Chapter 2	Describe what is the problem he/she wants to study in the research
4	Student doing the exploration to define and expressing prospective solution	<i>Planning & Design a Research Study. Define Research Question towards Specific Solution</i>	7. Methode: <i>contextual instruction</i> 8. Media : class room, computer, LCD, whiteboard,	Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley and Sons, Inc, 2005 – Chapter 2	Describe what is prospective solution for the problem
5	Student understand to conduct the research & 'state of the art' (sumary of Current	<i>Conducting the Research Data Collection,</i>	9. Methode: <i>contextual instruction</i> 10. Media : class	Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley and Sons, Inc, 2005 – Chapter 3,4	Select the theory to represent the position and

SESI	KEMAMPUAN AKHIR	MATERI PEMBELAJARAN	BENTUK PEMBELAJARAN	SUMBER PEMBELAJARAN	INDIKATOR PENILAIAN
	knowledge)	<i>Assesment Method, & Measurement Strategies</i>	room, computer, LCD, whiteboard,		state of art of the research and related works
6	Student understand the concept of validity	<i>Conducting the Research</i> <i>Validity</i>	11. Metode: <i>contextual instruction</i> 12. Media : class room, computer, LCD, whiteboard,	Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley and Sons, Inc, 2005 – Chapter 3,4	Represent concept of validity should be used in the research
7	Student understand type of research design and approach	<i>Conducting the Research</i> <i>Research Design, Case Study</i>	13. Metode: <i>contextual instruction</i> 14. Media : class room, computer, LCD, whiteboard,	Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley and Sons, Inc, 2005 – Chapter 5	Describe what is the case study used in the research
8		<i>Mid-semester Examination</i>			
9	Student has experience in exploring research topic	<i>Conducting the Research</i> <i>Research Design, Case Study</i>	15. Metode: <i>contextual instruction</i> 16. Media : class room, computer, LCD, whiteboard,	Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley and Sons, Inc, 2005 – Chapter	Describe how to conduct the research
10	Student could define a research as a selected topic for Final Project in	<i>Research in IS</i>	17. Metode: <i>contextual instruction</i>	Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley	Describe how to conduct the research as final

SESI	KEMAMPUAN AKHIR	MATERI PEMBELAJARAN	BENTUK PEMBELAJARAN	SUMBER PEMBELAJARAN	INDIKATOR PENILAIAN
	IS		18. Media : class room, computer, LCD, whiteboard,	and Sons, Inc, 2005 – Chapter	project in information system
11	Student could define a research as a selected topic for Final Project in IS	<i>Research in IS</i>	19. Metode: <i>contextual instruction</i> 20. Media : class room, computer, LCD, whiteboard,	Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley and Sons, Inc, 2005 – Chapter	Describe how to conduct the research as final project in specific topic in information system
12	Student understand the concept of Ethic in Research	<i>Ethical Consideration in Research</i>	21. Metode: <i>contextual instruction</i> 22. Media : class room, computer, LCD, whiteboard,	Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley and Sons, Inc, 2005 – Chapter	Describe about the ethic related to the research
13	Presentation of Research Proposal	Discussion and Presentation	23. Metode: <i>contextual instruction</i> 24. Media : class room, computer, LCD, whiteboard,	Geoffrey Marczyk, David DeMatteo, David Festinger, Essentials of Research Design and Methodology, John Wiley and Sons, Inc, 2005 – Chapter	Describe and argument the research proposal
14	Presentation of Research Proposal	Discussion and Presentation	25. Metode: <i>contextual instruction</i> 26. Media : class	1.	Describe and argument the research proposal

EVALUASI PEMBELAJARAN

SESI	PROSE-DUR	BEN-TUK	SEKOR ≥ 77 (A / A-)	SEKOR ≥ 65 (B- / B / B+)	SEKOR ≥ 60 (C / C+)	SEKOR ≥ 45 (D)	SEKOR < 45 (E)	BOBOT
1	<i>Pre test</i>	Non test	Describe what is research and distinguish the differences between research and development; and could make an example in several domain	Describe what is research and distinguish the differences between research and development; and could make an example	Describe what is research and distinguish the differences between research and development	Could not distinguish the differences between research and development	Not capable to describe what is research and distinguish the differences between research and development	
2	<i>Progress test</i>	Non test	Describe what is the research he/she wants to do, related to the perspective of his/her study program; and could make an example in several domain	Describe what is the research he/she wants to do, related to the perspective of his/her study program; and could make an example	Describe what is the research he/she wants to do, related to the perspective of his/her study program	Could not describe what is the research he/she wants to do, related to the perspective of his/her study program	Do not have the idea about the research he/she wants to do, related to the perspective of his/her study program	5
3	<i>Progress test</i>	Non test	Describe what is the problem he/she wants to study in the research ; and could make an example in several domain	Describe what is the problem he/she wants to study in the research; and could make an example	Describe what is the problem he/she wants to study in the research	Could not describe what is the problem he/she wants to study in the research	Do not have the idea about the problem he/she wants to study in the research	5

SESI	PROSE-DUR	BEN-TUK	SEKOR ≥ 77 (A / A-)	SEKOR ≥ 65 (B- / B / B+)	SEKOR ≥ 60 (C / C+)	SEKOR ≥ 45 (D)	SEKOR < 45 (E)	BOBOT
4	<i>Progress test</i>	Non test	Describe what is prospective solution for the problem; and could make an example in several domain	Describe what is prospective solution for the problem; and could make an example	Describe what is prospective solution for the problem	Could not describe what is prospective solution for the problem	Do not have the idea about prospective solution for the problem	5
5	<i>Progress test</i>	Non test	Select the theory to represent the position and state of art of the research and related works in several domain	Select the theory to represent the position and state of art of the research and related works; and could make an example	Select the theory to represent the position and state of art of the research and related works	Could not select the theory to represent the position and state of art of the research and related works	Do not have the idea about the theory to represent the position and state of art of the research and related works	5
6	<i>Progress test</i>	Non test	Represent concept of validity should be used in the research in several domain	Represent concept of validity should be used in the research; and could make an example	Represent concept of validity should be used in the research	Could not represent concept of validity should be used in the research	Do not have the idea about the concept of validity should be used in the research	
7	<i>Progress test</i>	Non test	Describe what is the case study used in the research in	Describe what is the case study used in the research; and could	Describe what is the case study used in	Could not describe what is the case	Do not have any idea about the case study	

SESI	PROSE-DUR	BEN-TUK	SEKOR ≥ 77 (A / A-)	SEKOR ≥ 65 (B- / B / B+)	SEKOR ≥ 60 (C / C+)	SEKOR ≥ 45 (D)	SEKOR < 45 (E)	BOBOT
			several domain	make an example	the research	study used in the research	he/she should used in the research	
8	<i>Post test</i>	UTS	Describe what is the case study used in the research in several domain	Describe what is the case study used in the research; and could make an example	Describe what is the case study used in the research	Could not describe what is the case study used in the research	Do not have any idea about the case study he/she should used in the research	30
9	<i>Progress test</i>	Non test	Select the theory to represent the position and state of art of the research and related works in several domain	Select the theory to represent the position and state of art of the research and related works	Describe how to conduct the research	Could not describe how to conduct the research	Do not have the idea about how to conduct the research	5
10	<i>Progress test</i>	Non test	Represent concept of validity should be used in the research in several domain	Represent concept of validity should be used in the research	Describe how to conduct the research as final project in information system	Could not describe how to conduct the research as final project in information system	Do not have idea how to conduct the research as final project in information system	5
11	<i>Progress test</i>	Non test	Describe what is the case study used in	Describe what is the case study used in the	Describe how to conduct the	Could not describe how	Do not have idea about	

SESI	PROSE-DUR	BEN-TUK	SEKOR ≥ 77 (A / A-)	SEKOR ≥ 65 (B- / B / B+)	SEKOR ≥ 60 (C / C+)	SEKOR ≥ 45 (D)	SEKOR < 45 (E)	BOBOT
			the research in several domain	research in certain domain	research as final project in specific topic in information system	to conduct the research as final project in specific topic in information system	how to conduct the research as final project in specific topic in information system	
12	<i>Progress test</i>	Non test	Select the theory to represent the position and state of art of the research and related works in several domain	Select the theory to represent the position and state of art of the research and related works	Describe about the ethic related to the research	Could not describe about the ethic related to the research	Do not have idea about the ethic related to the research	
13	<i>Progress test</i>	Non test	Describe and argument the research proposal in several domain	Describe and argument the research proposal in certain domain	Describe and argument the research proposal	Could not make argument the research proposal	Do not capable to represent research proposal	
14	<i>Post test</i>	UAS	Describe and argument the research proposal in several domain	Describe and argument the research proposal in certain domain	Describe and argument the research proposal	Could not make argument the research proposal	Do not capable to represent research proposal	40

Komponen Penilaian

Kehadiran : minimal 75% sesuai ketentuan universitas
Tugas : 30%
UTS : 30%
UAS : 40%
